Fahad is an energy source, great team player, and valued member of our organization."

Jerad Lally

Revenue Operations | Marketing | Business Development

"When our company was making its very first hiring surge, the first position we felt necessary to fill was the one of Scrum Master. At the time we had a pseudo working of the agile framework and we needed to take it to the next level. Then comes in Fahad. He not only educated the development team, but he made sure the entire company knew what scrum was and that would be the status quo going forward. Over the years, the company grew, and Fahad grew with it. He always wanted to make sure that nothing was stagnant in the development team. Whether it was doing a wacky new game during retro that brought a lot of insight, or deploying new processes that the team was finally ready for. He created a much-needed level of decorum, tact, and organization to all of the scrum processes that we didn't have before he was brought on board. Ultimately, the two words I would use to describe Fahad would be 'innovative' and 'effective'. Any scrum team would instantly improve if they brought on the master of scrum that is Fahad."

Interface Developer at IPeople

TESTIMONIALS

"I've been asked to say a few words about Fahad and the teaching/training he's going to bring you in Pakistan. I've known him for about three years, he's got about 5 years as a scrum master under his belt, but has been in the Agile industry and space for 12 years now. I first met him when he took my "Toyota training scrum, the Toyota way" session and since then we've continued to interact. I've been mentoring him to some extent, and he's seen me speak several times at a number of keynotes. I find him to be an incredibly knowledgeable and genuinely nice guy. I think you're gonna have a great deal of fun in his workshop and wish him all the best. I believe the training he is going to share with you will be a fantastic opportunity to learn and I think he's gonna do you and Pakistan a great deal of service. Good luck to Fahad and everybody, have a fantastic time, Thank you."
